

Wambenger Trails Kylie Mountain Bike Trail

Access the Kylie Trail from the trailhead at Minningup Pool or by following the dual-use Collie River Trail from Soldiers Park. **Stay safe** by reading the trail and safety information at Soldiers Park or the Kylie trailhead before you start.

Kylie-Collie Loop

Combine the Kylie Trail with the Karak Trail and Collie River Trail to form a 21km loop around Westralia Conservation Park.

Kylie Trail 10km (40 to 60 minutes)

This trail offers riders the opportunity to head out from Collie and experience a fun flowing mountain bike trail through Westralia Conservation Park. A steep 300m technical blue alternate line offers riders the chance to test their descending skills. When a breather is required, riders can stop at the Djinang Koorliny Lookout or the Kaniyang Willman Bridge and take in the views of the river valley.

Karak Trail 4.2km (20 to 30 minutes)
(From the finish of the Kylie Trail to the Collie Visitor Centre)

Named after the Noongar word for the forest red-tailed black cockatoo, the Karak Trail is a sealed dual-use path connecting Collie townsite to the outlying community of Allanson. Listen to the birds singing in the tall jarrah, marri and paperbark trees lining the path and enjoy a wonderful display of wildflowers in the spring. *(Ride an extra 1km through town from the Collie Visitor Centre to Soldiers Park to return to Minningup Pool along the Collie River Trail)*

Collie River Trail 6km (30 to 45 minutes)

Popular for all ages, this trail follows a sealed dual-use path alongside the Collie River to Minningup Pool. Keep an eye out for a variety of water birds, with wildflowers abundant between July and November. Minningup Pool is a lovely spot for swimming and kayaking with picnic tables located right at the water's edge.
