

Registered *Phytophthora* Dieback Interpreters Contact Information

Registered *Phytophthora* Dieback Interpreters (Interpreters) are specially trained to map the presence of *Phytophthora* dieback according to processes, procedures and standards administered by the DBCA. Proponents are advised to consider supplementary competencies when engaging Interpreters to ensure they meet site requirements.

¹ **Supplementary:** In addition to core (essential) competency, Interpreters may have competency in Low Interpretability (**LI**), Dieback Impact (**DI**) or Karri Regrowth (**KR**). Competencies are shown at the DBCA region or Private sector organisation level. Individual Interpreter competencies can be confirmed with the relevant region or organisation, or by contacting the DBCA Disease Hygiene Standards Officer (DHSO) at dhso@dbca.wa.gov.au.

For further information see the DBCA website [Dieback interpretation and mapping](#) and [Corporate Policy Statement No. 3: Management of Phytophthora Dieback](#).

For information and queries about the system for registering Interpreters contact the Disease Hygiene Standards Officer at dhso@dbca.wa.gov.au.
